

ICEF 155

Ice-O-Matic®

ICEF 155 AS/WS

ICEF Equipment range is the newly released EU made ice makers for Thimble-shaped rounded ice cubes coming from ICE-O-Matic.

Built in the Italian manufacturing plant of Frimont Spa, ISO 9001 Certified, these units are built with sturdy, corrosion resistant stainless steel, and feature European made componentry to assure maximum quality and reliability.

Tested one by one, the ICEF self contained units feature well balanced ratio between production and storage capacity, alongside with reduced outer dimensions that allow for built-in installations. Front air louvers assure appropriate airflow in critical install requirements.

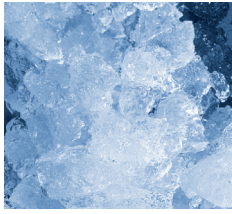

- ✓ Contemporary, elegant design unites excellent operational features with the reliability obtained through years of successful experience in ice making technology.
- ✓ Insulated bin door and ice storage bin minimize air condensation and water formation on equipment surfaces.
- ✓ Electromechanic controls maximise reliability and ease of repair during the entire life of the equipment.
- ✓ Patented scale-control technology (**) allows for long trouble free usage of the machines even in high minerals content locations.
