Modular Cooking Range Line

900XP 1200mm Gas Fry Top, Mild Steel HP

391061 (E9FTGLSSOP)

Large gas frytop with smooth horizontal mild steel plate, thermostatic control -HP

391062 (E9FTGLSP0P)

Large gas fry top, 2/3 smooth and 1/3 ribbed horizontal mild steel plate, thermostatic control - HP

Short Form Specification

Item No.

Smooth cooking surface in mild steel. 33 kW gas powered burners with thermostatic valve and self stabilizing flame. To be installed on open base installations, bridging supports or cantilever systems. Removable drawers below the cooking surface for the collection of grease and fat. Body and work top of unit entirely in stainless steel with Scotch Brite finish. Extra strength work top in heavy duty 2 mm stainless steel. Right-angled side edges to allow flush-fitting junction between units.

Main Features

- Exclusive IcyHot installation: combine the Fry Top HP with the dual temperature refrigerated/freezer base HP and obtain a single appliance which simultaneously increases productivity and facilitates cooking and storage operations.
- Unit to be mounted on open base cupboards, bridging supports or cantilever systems.
- Two large drain holes on cooking surface permits the draining of fat into two separate 3 liter collectors placed under the cooking surface.
- Stainless steel high splash guards on the rear and sides of cooking surface.
- Piezo spark ignition with thermostatic valve for added safety.
- The special design of the control knob system guarantees against water infiltration.
- IPX5 water protection.
- Units have 4 independent controls to regulate temperature of the cooking surface.

Construction

- Cooking surface in 20mm thick mild steel for optimum grilling results.
- Cooking surface to be completely smooth or 2/3 smooth and 1/3 ribbed.
- Unit is 930 mm deep to give a larger working surface area.
- All exterior panels in Stainless Steel with Scotch Brite finishing.
- AISI 304 stainless steel worktop, 2mm thick.
- Model has right-angled side edges to allow flush fitting joints between units, eliminating gaps and possible dirt traps.
