

SXX11695

Triple Action Quick Change System

SXX11695 filter system manufactured using NSF certified media for better reduction of chlorine, taste and odour and other offensive contaminants in the water. It will consistently provide food safe scale inhibition to prolong the life of water feed appliances.

It is designed for high water usage machine installations, the system offers a quick and easy bayonet cartridge to make changeovers a breeze. This high performance filter offers the latest filtration technology which provides huge sediment & chemical reduction capacity. It also dramatically reduces the development of scale to protect your equipment from costly breakdowns.

Reduces

- Sediment
- Chlorine
- Unpleasant taste and odour
- Organic contaminants
- Scale

Working pressure: 150-870kPa
Max. Temperature: 40 °C
Max. flow rate: 9 lpm
Nominal micron rating: 5

The system comes with easy to install accessories.

- 2M 3/8" tube
- 2 x 3/4" female x 3/8" OD connector

Caution: Do not use with water that is microbiologically unsafe or with water of unknown quality without adequate disinfection before or after the system. Systems certified for cyst reduction may be used on disinfected water that may contain filterable cysts.
