

The Australian owned and designed\* Trueheat RC Series of Gas Cooking Equipment has been developed for the restaurant and cafe market with a high quality finish, designed to fulfill the busy demands within a commercial kitchen.

The RCF4 fryer is a high quality economical open pot design model. Its premium fast action thermostat allows for oil temperature to quickly recover. It is durable and matches seamlessly with the Trueheat RC series. It's 18 litre capacity makes it ideal for small to medium sized restaurants, cafes and fast food outlets. It's 100mj capacity combined with front mounted high quality thermostat produces 26kg of fries per hour. Stainless steel construction with premium higher grade stainless frypot. 1 1/4" drain.

Note: This fryer is not suitable for plinth mounting.
