A solid door under-counter bar fridge designed to merchandise ready-to-serve cold beverages and food in bars, restaurants, clubs, pubs, and cafés. With M1 compliance it is engineered to serve cold food and drinks at 1°C to 4°C (or adjustable up to 15°C) in ambient environments of up to 40°C. Made from powder-coated, galvanised steel with colour options, it can also be upgraded to full stainless-steel construction. The doors and cabinet are fitted with built-in retractable tabs to enable locking via padlock. The fridge uses R290 natural refrigerant for ultra-low-energy consumption, low heat discharge and low noise output and can be provided in remote versions. The side-mounted fully removable refrigeration cartridge (with left and right options) is front-breathing and can be removed in line with best practice for safe servicing of flammable refrigerants. The fridge includes a controller that connects to a free app to enable the user to set temperatures and alerts, monitor temperatures and energy, and more. The fridge is certified to all Australian and New Zealand refrigeration and electrical safety standards
