

Self-Contained Ice Cube Maker

SKOPE ID: GALA NG45 A R290

Dimensions: 465mm (W) x 595mm (D) x 789mm (H) | 894 - 944mm (H w/ adjustable legs)

Ice Production: 47kg per 24h (Air temperature 21°C, Water temperature 15°C)

Storage Capacity: 20kg

Description

Self-contained ice maker producing gourmet-shaped, crystal-clear ice cubes, production 47kg/24 hours with reduced water usage and electricity. Virtually zero impact on the environment with R290 natural refrigerant. The ice maker is designed to complement high-end Scotch and Whiskey, as well as being perfect for cafés, as the gourmet ice cube is slow to melt reducing the impact on flavour. New electronic control enhances the performance and adapts to extreme climates, rated to 43 degrees Celsius. ITV patented Anti Scale Spray System works to avoid Limescale deposits and reduces vibrations. New Smart Front Ventilation System (SVFS) allows the self-contained units to be built in, new units also have an easy-to-access automatic cleaning switch at the front of the unit which disconnects the cooling cycle while circulating water and chemicals to clean the unit. The never-stop motor pump from ITV is designed without seals to prevent deterioration in hard water regions, and the units have a built-in lined storage bin which holds up to 20kg of ice. The unit can be ordered with an internal drain pump or without as standard. Self-contained units come with standard adjustable legs, and optional lockable castors 62mm high or 10mm levelling feet are available at an additional cost. Filter systems need to be installed with the ice machine to protect the 2-year parts and Labour warranty. Best suited to: Restaurants / Cafes, Clubs / Pubs / Bars, Hospitality / Venues, Accommodation.

Supplied Accessories

Water Inlet
Hose

Drain Hose

Water Inlet Filter
Gasket

Watermark

A Watermark approved* water filter, suitable for the water type at the place of installation must be used. SKOPE can provide a water filter that protects the Ice Maker, and ensures proper function and high quality ice production. Service or repair due to absence of a suitable water filter will not be covered by SKOPE warranty. Contact SKOPE for more information.

*Watermark approval is only applicable to Australian installations. Elsewhere, a suitable water filter must be used
