## Pass-through Warewasher

The New Smartwash Range of Pass-through warewashers are the first attractive, intelligent, one touch warewashing system in Australia that offers incredibly sustainable results in water and energy consumption.

This professional warewasher offers the first one touch control panel with digital wash and rinse temperature displays for easy HACCP recording for accurate food safety reporting.

These machines are sleek and compact because we know space is of the essence and presentation is key.

Independently certified for ventless/hoodless installation (SEED). The heat recovery system recycles energy by the steam generated in the dishwasher, saving energy in every cycle.
